EDUCATION

Cedar College

Cambridge International A Levels — Mathematics, Physics, Computer Science
Achieved Straight A Grades at AS Level | Dean's List | Honour Roll

Graduated Jun 2026

Karachi, Pakistan

TECHNICAL SKILLS

Languages & Databases: Python, TypeScript, JavaScript, SQL, SQLite

Frameworks & Tools: React 18, FastAPI, Flask, WebSockets, Electron, Pandas, NumPy, Scikit-learn, Vite

AI & Data: Whisper, Hugging Face, Machine Learning, Model Evaluation, LLM Applications

Methods & Tools: REST APIs, OOP, Asyncio, Git, Selenium, BeautifulSoup

SELECTED PROJECTS

Memora — Local-First Academic Intelligence Platform | Personal Project

Jun 2026 – Present

- Built a local-first desktop app with Electron, React, TypeScript, and FastAPI for offline academic document processing, async file handling, and persistent local storage
- Integrated a local Whisper transcription pipeline with resumable downloads and atomic file writes, preventing partial-install corruption during onboarding
- Improved local data integrity with SQLite WAL mode, foreign-key enforcement, and cascading cleanup for audio assets and derived artifacts

AI Race Engineer — Toyota GR Cup | Hack The Track 2025

2025

- Built a multi-agent race strategy workflow using Gemini API roles for strategy, tactics, coaching, and risk analysis to generate real-time recommendations
- Implemented a low-latency telemetry pipeline with FastAPI and WebSockets to stream real-time vehicle data into a Tailwind CSS + Framer Motion dashboard

British Airways Data Science Simulation | Forage

Jul 2025

- Collected and analyzed 1,000+ airline reviews with BeautifulSoup and NLP sentiment analysis to identify recurring pain points and support product recommendations
- Trained and optimized a Scikit-learn classification model to predict flight booking completions, identifying key customer purchase triggers for stakeholder reports

LEADERSHIP & EXPERIENCE

Chief Operating Officer | Cedar CODES

Sep 2025 – Present

- Direct operations for a 50-member student tech society, coordinating event production, outreach campaigns, and technical curricula across a 14-member executive board
- Spearheaded organizational and logistics strategy that resulted in winning the school's prestigious annual SCORE Award Trophy

Module Co-Lead — QWERTY Coding & CS | Scinova Science Olympiad IX

Jan 2026

- Co-led the launch of Scinova IX's first computer science module, QWERTY; helped design competitive programming tasks and event flow for 250+ attendees
- Presented winning participants at the closing ceremony and supported judging criteria for module evaluation

Junior Executive | Scinova Science Olympiad VIII

Jan 2025

- Supported modular planning and logistical coordination across Physics, Robotics, and Mathematics tracks for 250+ student attendees

Co-Lead & Workshop Facilitator | Hackpocalypse 2025

2025

- Co-led event operations, registration pipelines, and schedule management for a hackathon with 110+ participants
- Designed and facilitated a hands-on Pygame workshop introducing students to game development and software fundamentals

Co-Lead | Daydream Karachi

2024

- Managed live operations, supplier logistics, and venue scheduling for a student festival hosting 1,000+ attendees
